Richford®

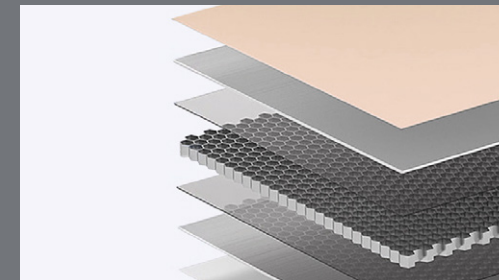

About Richford®

We have been striving to be at the forefront of the industry, insisting on craftsmanship to create high-quality products, laser seamless welding technology, and a long-lasting and non fading paint process on the surface. The accumulation of time actually enhances the high-end texture. Customized designs tailored to various decoration styles for you, 50 years later still keeping pace with the aesthetic of the times and ensuring quality online, guarding your second half of life with dedication!

Our stainless steel bathroom cabinets have become a popular choice in modern home decoration due to their durability, ease of cleaning, aesthetics, environmental friendliness, crack resistance, moisture and mold resistance, water and moisture resistance, and strong load-bearing capacity.

Multiple advantages converge to achieve extraordinary quality

Stainless steel sheet has the characteristics of 100% waterproof, moisture-proof, rust proof, non moldy, and non cracking, which is environmentally friendly, healthy, and durable.

The door panel corner protector adopts personalized ABS safety design to avoid scratching the skin at the edges of the cabinet and improve safety.

Optional hot bending basin and seamless basin, customizable with multiple bowl and countertop sizes and depths, balancing durability and personalized needs

Mirror cabinets can significantly expand storage space, organize toiletries in an orderly manner, and keep countertops clean.
